

MASTER LIST #1

☐ "The Rainbow's End Plantation is not just a nursery, a group of hybrids, or a collection of plants. It is, rather, a Grand Dream, a Unique Concept, and a Work Of Botanical Art, which, after many years, much effort and heartache, has matured and materialized in the Bloom Of Reality." ☐

☐ The Rainbow's End Plantation, Inc. ☐

☐ 4907 5th Street W. Redwood City, CA 94061

ISLANDS IN THE SUN

South from the peninsula of Florida, in clear, azure blue waters of the Gulf Stream, unfolds the vast and exotic island archipelago of the Caribbean Sea. Countless, self-contained worlds, as large as Jamaica, as small as the uninhabited Grenadines, with a diverse heritage of British, French, Dutch, Spanish, & African peoples & ways--the pressures of the real world are left behind, & time takes on a new and slower perspective. Swinging in a rope hammock under the coconut palms, Planter's Punch in hand, waves lapping the crescent lagoon, silent witness to the spectacle of the setting tropic sun, euphoria pervades. The world is at peace with itself. The Caribbean is a blaze of bright carnival colors, brilliant reef fish, flamingoes in flight, flamboyants in bloom; shimmering, sensuous, secret coves and sandy beaches, fire eaters breathing flame to the sound track of the limbo beat. We wish you to experience your own share of this warm happiness, wherever you are, no matter how bleak & dreary the day may be, & so we bring you, our ISLANDS IN THE SUN.

1005/10/11 CARIBBEAN SUNSET (CRUENTA 'Sun King' X CATHERINE WILSON).  All 1005 CV's (except 2) make SHORT, STOLONIFEROUS 'WINGS', are EXCELLENT when HOT-GLUED TO DRIFTWOOD, and are ESPECIALLY WELL SUITED to growing as LARGE MULTIPLES, which play the short, robust STOLONS to best advantage. They can take VERY BRIGHT, NEARLY FULL SUNLIGHT, if properly conditioned, and have an UPRIGHT, VASE SHAPE. 'Coral Reef' 'Doubloon' & 'Curacao' CV's each vary slightly, have BROAD, HEAVILY TEXTURED, LIGHT YELLOW/GREEN LEAVES with HEART-SHAPED, BRIGHT PINK FINGERNAILS, overlaid in SUNSET COLORS of PINK AND ORANGE, & a variety of SPOTTING showing through the CONTRASTING UNDERLEAF COLOR. Particularly attractive when displayed at EYE LEVEL or HIGHER. (17.50). 'Planter's Punch' These CV's are similar to the above in all respects, except leaf color, which is a SOLID, CLEAR, PEACHY PINK, without spotting, reminiscent of the orange juice, red grenadine, & dark rum of its namesake; nice WINGS, BEST MOUNTED AS MULTIPLE. (17.50) 'Calypso' ★★★ These are EXCEPTIONAL CV'S, selected for their BRIILLIANT, SATURATED ROSE-PINK color; they have HEAVY, WIDE leaves, and are not stoloniferous or upright. (\$25.) 'Port O' Call' ★★★  This ONE-OF-A-KIND SuperClone, has an EXTREMELY INTENSE, RED/ORANGE LEAF MARGIN AND TIPPING, overlaid on a LIGHTER ORANGE/PINK BASE LEAF COLOR, and is so intense in maturity it can easily be spotted all the way across the greenhouse. Leaves, while not especially full in number, are BROAD AND HEAVY, and LARGE OVERALL. RED MARGINS INTENSIFY as plant grows, and upon maturity, in good light, RED OVERLAY WILL EXTEND OVER HALFWAY DOWN THE LEAF. (\$50.)

1100 ☐ VOODOO (ROYAL BURGUNDY 'Deser' X TAKEMURA PRINCEPS)   All CV's of VOODOO are DEEP RED with SHALL, LIGHT SPOTTING, MEDIUM-TO-LARGE size, and EXCELLENT CONFORMATION influenced by the superior parents. 'Baron Samedi' in his black top hat and white-paint face, is the principal voodoo spirit, as this is the principal CV, with a very TakPrin leafshape, various markings. 'Sirene' (The Mermaid) 'Veve' (The intricate design drawn on the floor to invoke the spirits), and 'Zandor' (The secret ritual of the Voodoo) are very full, darker, more conventional leaf shape. (All CV \$25)

1260 ☐ ISLANDS IN THE SUN (MORRIS HENRY HODBS X COMPACTA 'Rubra Marginata')  One especially EXCELLENT FEATURE of COMPACTA is its ability to CROSS-BRED with NON-STOLON NEOS and still put out stoloniferous 'WINGS', albeit somewhat shorter. This cross was named 'Islands In The Sun' for it was meant to BE GROWN, not as individual plants, but as ISLAND MULTIPLE and even as ASYMMETRICAL ARCHIPELAGOS (Judges, take note). ALL have RED CENTERS, short WINGS, somewhat UPRIGHT shape. (All CV's 17.50) CV'S WITH PINK EDGING AND BLUSHING OVER PALE YELLOW/GREEN LEAVES: 'St.Vincent' 'St.Lucia' CV'S WITH CLEAR, SOLID, DEEP PINK-TO-RED LEAFAGE: 'Barbados' 'Bimini' All have soft, compacta-esque foliage.

1308 ☐ HURRICANE ALLEY (GRANDE 'Fantastic Gardens/QBT' X CORIACEA 'Kent's Best')  All CV's have DEEP, RICH CHOCOLATE/MAROON BARRING, WIDE LEAF shape. 'English Harbour' 'Port Royal' DEEP, RICH CHOCOLATE/MAROON BARRING, WIDE LEAF shape.

1250 ☐ FLAMINGO (OH NO 'Very Cherry' X CRUENTA RUBRA 'Goliath')   'Flight Of Fancy' ★★★ A shocking 'FLAMINGO PINK' very ELECTRIC, on a SOFT, LARGE, WIDE LEAFED, VERY FULL LEAF PATTERN. Combination of excellent characteristics from both parents. (\$25.)

2005 ☐ COCONUT GROVE (NEOREGELIA AMPULLACEA HYB. #334 X CRYPTANTHUS FOSTERIANUS)  A good bet for the HIGENERICS DIVISION OF SHOWS, this SMALL, STOLONIFEROUS combination has SQUAT, FAT LEAVES, a DOMINANT NEO-LOOK, marked with SPOTS & traces of BARRING. (\$15.) 'Coco Loc

1072 ☐ TROPICANA (OH NO 'Very Cherry' X CAROLINAE 'Lil')   'Caribe' Sundrenched days of beachcombing through deserted coves inspire this cross, which has the CORAL PINK color and glossy texture of a freshly discovered seashell, bright red tips (\$10).

1207 ☐ WINDWARD PASSAGE (MELANODONTA HYBRID #422 X CONCENTRICA 'Big Blue')   'Azure Tides' ★★★  This EXCEPTIONAL CV, first to bloom, has a DEEP, RICH, MELANODONTA PURPLE CUP, and VERY WIDE OVERALL LEAFAGE. It was bred onward in '82 to EMERALD CITY, REFLECTIONS, & KINGDOM OF PERSIA, and differs significantly from other CV's of this cross  (\$15.)

1239 ☐ MARTINIQUE ((TRISTIS X MARIE)) X MELANDORFII 'Ile De France'   One of our best plants of ORANGE-TO-RED leaf color, contrasting red cup (\$17.50)

1321 ☐ CARIVALE (TAKEMURA PRINCEPS X MAGIC CUP OF PAINTS)   All CV's of this cross have been EXCELLENT, and most have remained very small and compact, with pink barring and heart-tipped leaves, and will be available after the Great Bloom Of '83. One LARGE, UNUSUAL cultivar 'Masks Off At Midnight' ★★★ bloomed this past year, and a FEW are now available. HEAVY TEXTURE & TAKPRINCEPS LEAF SHAPE with BRONZE/ORANGE color to the leafage and LIGHT RED SPECKS, plus a BRIILLIANT RED CUP (\$35.)

1243 □ SLAVE'S CHALICE (JOHANNIS RUBRA X ((TRISTIS X HARIF))) ~~AVAILABLE/SUM~~ Named for a HAND-CRAFTED SILVER CHalice, presented to the 'Cathedral Of Montserrat' on the British Commonwealth Island, by the slaves, to commemorate their emancipation in the 1800's, this CV matches a special double-exposure photo, which is principal to 'JOURNEY TO THE RAINBOW'S END'. Selected for its RICH, DARK MAROON/BLACKISH JOHANNIS-GENE-INFLUENCED LEAFAGE, and GLOSSY FLATNESS, the black chalice stays SMALL, GOOD COPY! (7.50)

1320 □ JAMAICA (LADY RACINE 'Bromel-La' X PRINCEPS 'Indigo') ~~AVAILABLE/SUM~~ The INDIGO/PURPLE of the PRINCEPS CUP has transmuted itself into the LEAFAGE AND CUP of the JAMAICA CV's., a SOFT, ROMANTIC TONAL RANGE, befitting its namesake, one of the world's most exotic islands. MULTI-LEAFED FULLNESS, to which Lady Racine has ADDED SIZE. Various CV's, (all \$25.) 'Kingston' 'Negril' 'Port Antonio' 'Montego Bay'

1253 □ FIRE DANCE (LADY RACINE 'Bromel-La' X CAROLINAE 'Hazel') ~~AVAILABLE/SUM~~ 'Torch Song' This CV has many of the CHARACTERISTICS of CAROLINAE, transferred up to the LARGER SHAPE of the VERY-BROADLEAFED LADY RACINE. Pink Foliage & red center. (5.25.)

1121 □ RUNAWAY BAY (TAKEMURA PRINCEPS X CRUENTIA RUBRA 'Goliath') ~~AVAILABLE/SUM~~ 'Pirate's Cove' 'Galleon' 'Blackbeard' 'Treasure Island' BROAD, UNUSUALLY MARKED LEAVES.

1025 □ FLAMBOYANT (COMPACTA 'Crown Prince' X ((FOSTERIANA X SPECTABILIS))) ~~AVAILABLE/SUM~~ 'Royal Ponclana' 'Ponclana June' is a famous Nassau celebration, when the island is aflame with the red and gold trees--this same theme is picked up in this BRIGHT RED CV with YELLOWISH SPOTS, and the THIN, SPIKELESS LEAF OF COMPACTA. Spectabilis seems to have remained dormant. (5.10.)

1247 □ PORT-AU-PRINCE ((TRISTIS X FOSTERIANA)) X CORIACEA HYBRID #244) ~~AVAILABLE/SUM~~ 'Iron Market' Respeaking the rich textures of Haiti's 18th Century, cast iron, central marketplace, this CV group is a DEEP BURGUNDY RED, OVERLAYING GREEN, MED. SIZE/COM. (17.50)

1252 □ TRADEWINDS (LADY RACINE 'Bromel-La' X ((VULKAN X CHLOROSTICTA))) ~~AVAILABLE/SUM~~ 'Postage Stamp Islands' LARGE, CONCENTRICA-ESQUE LEAFAGE, with PINK CUP/OVERLAYS

1318 □ ROSE HALL (FAIRY PAINT 'New Orleans' X DECORA 'Concentrica By Princeps') ~~AVAILABLE/SUM~~ 'Anne Palmer' Named for the EVIL MISTRESS of the famed ROSE HALL PLANTATION outside Montego Bay, and whose ghost reputedly still roams the cane fields in the moonlight, this special CV has WIDE LEAVES, and an UNUSUAL CUP PATTERN OF STRIKING, IRREGULAR SPOTTING AGAINST PINK 'FAIRY PT' BKG. (525)

1199 HOLLYWOOD

Available 1984

(Painted Desert X concentrica 'Big Blue') 1978
'Dream Factory' 'Sunset Strip' 'Beverly Hills' All CV's \$ 17.50
'Hollywood Boulevard'

WE SELL GENETICS The Rainbow's End Plantation sells an exclusive product, the neoregelia & bromeliad hybrids of James V. Limore, and of Guest Hybridizers using the Rainbow's End Stud Collection. Our usual policy is to grow all seedlings to maturity. We NEVER sell an original seedling, grade the mature plant for quality, name the various cultivars or groups of cultivars, keep the first one or two offsets as 'Sample' and 'Show' plants, and then release the balance of pups from the original plant, which may range from one to ten, first come, first served. Plants vary in size from nearly half grown and in color, from earlier or more prolific crosses, to, occasionally, freshly cut and green pups of newer, rarer, or 'one-of-a-kind' exceptional cultivars. In every case we will deliver the largest available offset from our stock for delivery. All offsets are guaranteed for 6 months, unconditionally, and guaranteed to be the cross as specified. Prices are based on the genetic quality of the specific cultivar as judged in the mature original seedling, and are NOT based on the size of the plant delivered. Many hybrid crosses contain a large number of excellent plants, which may vary little from one to the other, such as 1013/12/70 Rambler Rose, or may vary substantially, yet all be good, such as 1095 Cheekate. Prices are very reasonable on these 'Standards', which represent 95%-98% of all seedlings, based on the number of original seedlings which produce offsets, which may range from five per cross to over 100, with about 25 being average. We offer discounts when ordering more than one plant from each price group of the 'STANDARD' cultivars.

1-\$ 10.00	1-\$ 17.50	1-\$25.00
2 - \$ 9.00 EACH (18.00)	2 - \$15.00 EACH (30.00)	2 - \$ 22.50 EACH (\$45.00)
3/+ - \$ 8.00 EACH (24.00)	3/+ - \$ 12.50 EACH (37.50)	3/+ - \$ 20.00 EACH (\$60.00)

UNUSUAL, EXCEPTIONAL, & ONE-OF-A-KIND CULTIVARS are specially graded cultivars with outstanding qualities. They may be either from a cross in which other 'Standards' were of a quality to release in the lesser price category (for instance, Yellow Devil 'Lucky Strike' #1, #2, #3, #4, #5 were all yellow with red striping, most extraordinary, but shape varied from medium, upright, in #2 (a 'Standard' at \$17.50) to the extremely large, and wide leaved #1 (a 'One-Of-A-Kind' Cultivar which won Best-Of-Show in this year's Baton Rouge Show). When a plant shows varying prices, the higher price indicates there exists one or more exceptional cultivars. Or, occasionally, as in 1095-01 Harlequin 'Ca'p'zan', and 1025-01 Emerald City 'Great 02', the exceptional qualities of the one specific cultivar were so special that all others of that cross were removed from circulation. In most cases 'Exceptional' cultivars originate with only one seedling, and in most cases, used for hybridizing, which cuts down on pup production tremendously, often yielding only 1 to 3 offsets, and thereby giving cause to longer waits and higher prices, but for a very superior plant.

\$ 35.00 EACH	\$ 50.00 EACH	\$ 75.00 EACH	\$ 100.00 EACH
---------------	---------------	---------------	----------------

IMMEDIATE DELIVERY means there were 5 or more of this cross on hand when Master List was prepared. These are usually established pups of some size and color. **AVAILABLE/SUPPLY LIMITED** means less than 5 pups were on hand. These are more likely to be 'freshly cut'. It should be noted, however, that pups of exceptional crosses sell quickly, quantity is very limited until the first 'Sample' pup makes its pups, and that to wait for a more mature plant of a specific cultivar may take years.

SUBSTITUTIONS/BACK ORDERS In the case an ordered plant is not available, we will back order it if we feel delivery will be within 6 months, or substitute with a similar cross of equal or greater value if not. **BONUS PLANTS** We always like to say 'Thank You' with various bonus plants (of our selection) with each order.

RESERVATIONS-"GROW ONE FOR ME" Reservations for delivery of Specific Cultivars, not currently available require a deposit of 25%. **OUR UNUSUAL & UNCONDITIONAL GUARANTEE** Plants are guaranteed for 6 months from loss by any cause, including weather, dogs, accident. Return what's left with explanation. **REGISTRATION** All hybrid crosses offered in the MASTER LIST have been registered with the Hybrid Registrar of the BSI, at Selby Gardens, Sarasota, FL.

CROSS NUMBERS & CULTIVAR NUMBERS plants are assigned a six-digit number. The first four numbers indicates the cross and the last two the specific seedling within that cross. For instance, in the number 1126-05, 1126 indicates the cross, Thief Of Baghdad (any 1126 would be a 'Thief'), and the -05 means it is the fifth seedling (or a pup thereof) of the batch. **HOW TO ORDER** When ordering, please indicate the name & number of the plant desired, group 'Standards' together to figure discount, and indicate when ordering an EXCEPTIONAL cultivar when both are offered.

SHIPPING & SALES TAX Orders are shipped UPS normally, please include \$5. per \$100. plants ordered for shipping. Special Handling: UPS Blue Label, Priority Mail, or Express Mail, \$10. per \$100. **CALIFORNIA ORDERS SHIPPED SPECIAL HANDLING ONLY** Florida Residents include 5% State sales tax.

GROWING CONDITIONS Our plants are grown under 50% shade cloth. We do not feel it is possible to maintain greatest color in neoregelias when growing under corrugated fiberglass, based on past experience. **POTTING MIXES** Bulk in our potting mixes is: 1/3 perlite, 1/3 cypress mulch, 1/3 California redwood mulch, mixed in an old fashioned bathtub.

We water frequently, and do not use peat moss as it tends to become heavy. Additives (per bathtub) are: 4 cups triple-superphosphate; 4 cups muriate of potash; 4 cups millorganite; 2 cups cow manure; 1 cup micromax microelements. For 'New Orleans' style, cut millorganite and cow manure to one cup, use smaller pots. For larger plants, with color and conformation, add 2 to 4 cups Maxigrow. We NEVER use OSNOCONE (or other HIGH NITROGEN slow release or liquid fertilizers) on plants for Sample or Show, as it causes them to become green and leggy. We do use them, WITH BLOOD ONLY, to increase pup production.

COLOR CONTACTS Color Contacts, #1 & #2, and Color Sampler #1, are available at \$5. each, as Bromeliad Art Collectibles, and as an aid in the selection of hybrids. **PLEASE VISIT-CALL AHEAD** We are most amenable to visitors. Please plan to spend adequate time in morning or afternoon if necessary to see everything without being rushed. Our 'Rainbow House' is lighted at night, in a most entertaining manner. Please contact us with your travel plans as far in advance as possible.
